

CUMBERLAND ELEMENTARY HOME LEARNING SUPPLY LIST

**This list is provided as a guide for parents and caregivers:
suggested, not required, supplies that can support learning at home.**

At Cumberland, we ensure that all students are provided with essential supplies necessary for accessing learning. We recognize that many families want to know what they can purchase for their children as home/school supplies; therefore, we have curated a list of suggested (not required) items that families may consider purchasing for home use to support the home/school connection. We also acknowledge that some families have an interest in supporting teachers and the school through supply donations. We encourage those interested to contact teachers directly.
